

Summer School in Quantitative Immunology National University of Ireland Galway 23-24 June, 2014

This Summer school is a part of the Marie Curie Initial Training Network 'QuanTI' training programme. This two-day workshop will include lectures from leading experimental, mathematical and computational immunologists as well as practical sessions on the analysis of T cell receptor diversity from high throughput sequencing data and analysis of stochastic cell fate models.

Location

National University of Ireland Galway

Topics

The workshop is organized along two broad themes:

Day 1

- T cell development and T cell receptor repertoire and dynamics.

Day 2

- Interaction between T cells and antigen presenting cells.

Speakers include

- Grant Lythe
- Oreste Acuto
- Ken Duffy
- Mario Delgado
- Rod Ceredig
- Benedita Rocha
- Benny Chain
- Arup Chakraborty

Registration

To apply for a place on the summer school, please send an e-mail to Cathal.Seoighe@nuigalway.ie with [QuanTI Registration] in the subject line. Please submit an academic CV along with your application. All participants will arrange their own transport and accommodation.

Fee

Registration is free for QuanTI fellows. Participants who are not members of the network will be required to pay a registration fee of €100 at the event. Places are limited
